EDUCATION

M.Sc. Applied Geoinformatics — Oct 2025 – present
Paris Lodron University Salzburg (Z_GIS), Austria

B.Sc. Geography: Society and Environment — Oct 2021 – Sep 2025
University of Bayreuth, Germany · Final grade 2.3 · Thesis: *Geopolitics of Global Infrastructure*

EXPERIENCE

GIS Intern · adesso — Jul – Aug 2026
Competence Centre GIS · eight-week internship researching GeoAI

- Benchmarked nine open-source GeoAI tools (QGIS plugins, MCP integrations, coding-agent skills) with local models and GPT-5-nano across 45 scored test runs; summarised findings in a ~35-page report.
- Built a multi-agent proof of concept for natural-language flood analysis: the LLM controls the workflow while fixed Python modules compute flood extent, affected buildings and risk; deployed as a containerised web app and presented to the team.

QGIS · MCP · LLM agents · Python · Docker

Working Student, GIS · Asseco BERIT GmbH — Jan 2022 – present
Mannheim, Germany

- Develop data models and implement them in the in-house GIS "SAMO & LIDS".
- Create thematic layers to standards such as ALKIS.
- Build and configure WebGIS applications.

Java · XML · Oracle / DBeaver · SAMO/LIDS

PROJECTS

Visualising Temperature Anomalies in European Countries — PLUS · 2025
Physical and digital map with an ArcGIS StoryMap; team of three.

Climate-Resilient Bayreuth: Sankt Georgen — Bayreuth · 2024
Study project assessing climate resilience with remote sensing and climate data; team of four.
